Dear Padre

I care for my mother, who has dementia. I was active in my parish, but now I hardly have a minute to spare for prayer, much less helping out at church. I'm getting very depressed. What should I do?

I have several ideas. First, make your prayer life part of your mother's routine, and you'll find it easier to fit prayer into your day. People with dementia find it soothing to listen to repetitive prayer, so consider praying the rosary aloud in her presence. Sometimes people with advanced dementia can still remember and recite the Our Father and the Hail Mary, so you could end up praying the rosary together. That would truly be a gift.

Next, try reading aloud Scripture stories from a youth Bible. They'll be easier for her to understand than passages from an adult Bible, and you'll get some time with God's word.

Last, but absolutely not least, it's important for you to be connected. If your parish has a parish nurse, he or she can help you find respite care, in which someone takes your place with your mom so you can get away for a while, or a caregiver-support group where you can talk with other people in your situation. If your parish doesn't have a nurse, your diocese can give you the same information.

Remember, attending to your spiritual health doesn't just help you—it helps your mother, too.
